

Muhammad Tashif Munir Toor

Python Developer | AI & Backend Engineer

+92-336-2715232 tashiftoor12345@gmail.com Lahore, Pakistan linkedin.com/in/tashiftoor github.com/TashifToor

SUMMARY

Python Developer specializing in Django, FastAPI, and LangChain-powered AI systems — with hands-on experience building RAG pipelines, agentic AI assistants, and multi-tenant SaaS platforms. Interned at WorldWise Solutions delivering production-grade AI systems, while independently shipping client projects .The code works. The system is live. The client is happy

EXPERIENCE

Backend Developer

M1 Soution

Remote

- Implemented FastAPI backend for internal software platform used in airline operations.
- Designed and managed PostgreSQL database schema supporting core business workflows.

AI/ML Intern — Team Lead

WorldWise Solutions

Feb 2026 – May 2026 | Remote

- Led development of HadeesGPT — a GPT-powered Islamic Hadees search system (Ibn Majah) using RAG, achieving 92% query accuracy on domain-specific benchmarks.
- Designed and deployed RAG pipelines using LangChain and ChromaDB, cutting document retrieval time by 70%.

Python Backend Intern — Team Lead

CodeCelix

Sep 2025 – Nov 2025 | Remote

- Delivered 8 RESTful API endpoints using Django REST Framework, integrated directly with a React frontend.
- Led task allocation and code reviews across a 3-member backend team, reducing integration turnaround by 35%.

TECHNICAL SKILLS

Languages & Frameworks	Python, Django, Django REST Framework, FastAPI, Flask, LangChain, LangGraph, RAG & Agentic RAG
AI & ML	SentenceTransformers, Scikit-learn, Pandas, NumPy, Matplotlib, Groq & OpenAI LLM API
Databases	MySQL, PostgreSQL, ChromaDB (Vector DB), MongoDB, Redis
Tools	Git, GitHub, Docker, Celery, Postman, Streamlit, Cache
Frontend	HTML5, CSS3, Tailwind CSS, JavaScript, React, Next.js, Vite

PROJECTS

TalentIQ — Agentic RAG HR Recruitment Assistant

LangGraph · FastAPI · FAISS · GroqLLM · Next.js(2026)

- Built an agentic RAG pipeline using LangGraph with multi-step reasoning for intelligent CV screening and candidate ranking.
- Engineered FastAPI backend with /chat and /upload endpoints; Next.js frontend with real-time recruiter dashboard.

Medical RAG Chatbot — MediCare AI Solutions

LangChain · ChromaDB · GroqLLaMA3.370B · FastAPI · Docker (2026)

- Engineered a RAG pipeline over an 8-document medical PDF knowledge base, reaching 94% semantic retrieval accuracy.
- Containerized as a Dockerized Streamlit app with anti-hallucination prompt guards; average response time under 2 seconds.

BizLedger — Multi-Tenant SaaS Accounting Platform

DjangoRESTFramework · JWT · React/Vite · PostgreSQL · Docker(2025)

- Built a full-stack multi-tenant SaaS platform with role-based access (Owner, Accountant, Viewer).
- Engineered 7 Django apps — invoicing, expense tracking, real-time financial dashboard — with tenant-isolated PostgreSQL schema.

Freelance Client Projects

Django · React · Next.js · Vite(2025–2026)

- BAWA G Restaurant: Full Django website with menu showcase, order inquiry form, and dark/gold branded design system.
- TRT Construction: React + Vite corporate site with masonry gallery, WhatsApp inquiry form, and industrial design system.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

University of Punjab, Lahore

CERTIFICATIONS

WebDeveloperCertification | CodeCelix | Nov 2025
