

# MUHAMMAD TASHIF MUNIR TOOR

Python Developer | Software Engineer | Django · FastAPI · REST APIs · PostgreSQL

[tashiftoor12345@gmail.com](mailto:tashiftoor12345@gmail.com) | [+92-336-2715232](tel:+92-336-2715232) | [Lahore, Pakistan](#) | [linkedin.com/in/tashiftoor](https://linkedin.com/in/tashiftoor) | [github.com/TashifToor](https://github.com/TashifToor)

## PROFILE

Python Backend Developer with 1.5 year of hands-on production experience building REST APIs, multi-tenant SaaS platforms, and database-driven systems using Django, FastAPI, and PostgreSQL. Led backend teams at WorldWise Solutions and CodeCelix delivering endpoints in live operations. Independently shipped full-stack client products on schedule with 100% sign-off.

## TECHNICAL SKILLS

|                                    |                                                                                 |
|------------------------------------|---------------------------------------------------------------------------------|
| <b>Languages &amp; Frameworks:</b> | Python, Django, Django REST Framework, FastAPI, Flask, Celery, Redis            |
| <b>Databases:</b>                  | PostgreSQL, MySQL, MongoDB, Redis — schema design, query optimisation, indexing |
| <b>DevOps &amp; Tools:</b>         | Git, GitHub, Docker, Postman, REST API design, JWT Auth, OAuth2                 |
| <b>Frontend (supporting):</b>      | HTML5, CSS3, Tailwind CSS, JavaScript, React, Next.js, Vite                     |
| <b>AI / ML (supporting):</b>       | LangChain, LangGraph, RAG pipelines, FAISS, ChromaDB, Groq LLM API              |

## PROFESSIONAL EXPERIENCE

### Backend Developer

2026 – Present

#### M1 Solution— Remote

- Architected FastAPI backend powering an airline-operations internal platform; designed service layer and API contracts from scratch.
- Engineered PostgreSQL schema for core business workflows, cutting data access latency by 30% through query optimisation and indexing.

### Associate AI Developer— Team Lead

2025 – 2026

#### WorldWise Solutions — Remote

- Engineered HadeesGPT — Islamic Hadees RAG search system using LangChain + ChromaDB achieving 92% query accuracy; directed 3-engineer ML team.

### Python Backend Developer—TeamLead

2025 – 2025

#### CodeCelix — Remote

- Delivered 8 production RESTful endpoints via Django REST Framework integrated with React frontend; cut integration turnaround by 35% leading code reviews across a 3-member team.

## PRODUCTION PROJECTS

### BizLedger — Multi-Tenant SaaS Accounting Platform

DjangoREST Framework · JWT · PostgreSQL · Docker · React/Vite

- Designed multi-tenant SaaS architecture with role-based access (Owner / Accountant / Viewer) and tenant-isolated PostgreSQL schema enforcing zero data leakage.
- Shipped 7 Django apps — invoicing, expense tracking, real-time dashboards — supporting 1,000+ simulated tenant transactions.
- Containerised full stack with Docker; secured all endpoints with JWT authentication and DRF ViewSets.

### Freelance Client Deliveries

Django · REST APIs · React · Next.js · Vite

- Delivered BAWA G Restaurant (Django backend + React frontend) and TRT Construction (React + Vite) — both shipped on schedule with 100% client sign-off.
- Handled full project lifecycle: requirements, backend API design, deployment, and client handover.

### TalentIQ — Agentic RAG HR Recruitment Assistant

LangGraph · FastAPI · FAISS · GroqLLM (LLaMA 3.370B) · Next.js

- Engineered FastAPI backend (/chat, /upload, /Rating/screen) with JWT auth, PostgreSQL persistence, and FAISS semantic search over 500+ candidate profiles.
- Architected multi-step LangGraph agentic pipeline for autonomous CV screening; cut recruiter time-to-shortlist by 60%.

### MediCare AI — Medical RAG Chatbot

LangChain · ChromaDB · Groq LLaMA 3.3 70B · FastAPI · Docker

- Engineered RAG pipeline over an 8-document medical PDF corpus reaching 94% semantic retrieval accuracy via SentenceTransformer embeddings.
- Dockerised FastAPI app with anti-hallucination prompt guards; achieved sub-2s response under concurrent load.

## EDUCATION

Bachelor of Science in Information Technology (BSIT)

University of the Punjab, Lahore, Pakistan
