

MUHAMMAD TASHIF MUNIR TOOR

Python Developer | AI & Backend Engineer

tashiftoor12345@gmail.com | +92-336-2715232 | Lahore, Pakistan | linkedin.com/in/tashiftoor | github.com/TashifToor

PROFILE

Python Developer specializing in **Django**, **FastAPI**, and **LangChain-powered AI systems** — with hands-on production experience building **RAG pipelines**, **agentic AI assistants**, and **multi-tenant SaaS platforms**. Interned at WorldWise Solutions delivering AI systems in live operations while independently shipping full-stack client products. The code works. The system is live. The client is happy.

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, Django REST Framework, FastAPI, Flask, LangChain, LangGraph, RAG & Agentic RAG

AI / ML: SentenceTransformers, Scikit-learn, Pandas, NumPy, Groq LLM API, OpenAI & Gemini API, Matplotlib

Databases: PostgreSQL, MySQL, ChromaDB (Vector DB), FAISS, MongoDB, Redis

DevOps & Tools: Git, GitHub, Docker, Celery, Postman, Streamlit

Frontend: HTML5, CSS3, Tailwind CSS, JavaScript, React, Next.js, Vite

EXPERIENCE

Backend Developer

Feb 2026 – Present

M1 Solution — Remote

- Architected **FastAPI** backend powering an airline-operations internal platform, designing service layer and API contracts from scratch.
- Engineered **PostgreSQL** schema for core business workflows, cutting data access latency by **30%** through query optimization and indexing.

AI/ML Intern — Team Lead

Feb 2026 – May 2026

WorldWise Solutions — Remote

- Engineered **HadeesGPT** — Islamic Hadees RAG search system (Ibn Majah corpus) using **LangChain + ChromaDB**, achieving **92% query accuracy**; directed 3-engineer ML team.

Python Backend Intern — Team Lead

Sep2025– Nov2025

CodeCelix — Remote

- Delivered **8 production RESTful endpoints** via Django REST Framework integrated with React frontend; cut integration turnaround by **35%** leading code reviews across a 3-member team.

PROJECTS

TalentIQ — Agentic RAG HR Recruitment Assistant

2026

LangGraph · FastAPI · FAISS · Groq LLM (LLaMA 3.3 70B) · Next.js

- Architected **multi-step LangGraph agentic pipeline** for autonomous CV screening and ranking, cutting recruiter time-to-shortlist by **60%**.
- Engineered FastAPI backend (**/chat**, **/upload**); built real-time **Next.js** dashboard with FAISS semantic search over **500+** candidate profiles.

MediCare AI — Medical RAG Chatbot

2026

LangChain · ChromaDB · Groq LLaMA 3.3 70B · FastAPI · Docker

- Engineered RAG pipeline over an **8-document medical PDF** corpus, reaching **94% semantic retrieval accuracy** via SentenceTransformer embeddings.
- Dockerized Streamlit app with **anti-hallucination prompt guards**; achieved **sub-2s** response under concurrent load.

BizLedger — Multi-Tenant SaaS Accounting Platform

2025

Django REST Framework · JWT · React/Vite · PostgreSQL · Docker

- Designed **multi-tenant SaaS architecture** with role-based access (Owner / Accountant / Viewer) and **tenant-isolated PostgreSQL schema** enforcing zero data leakage.
- Shipped **7 Django apps** — invoicing, expense tracking, real-time dashboards — supporting **1,000+** simulated tenant transactions.

Freelance Client Deliveries

2025–2026

Django · React · Next.js · Vite

- Delivered **BAWA G Restaurant** (Django) and **TRT Construction** (React + Vite) — branded sites shipped on schedule with **100% client sign-off**.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

University of the Punjab, Lahore, Pakistan

CERTIFICATIONS

Web Developer Certification — CodeCelix | Nov 2025
